SUMMARY

Computer Science graduate with hands-on experience in software testing, quality assurance, and UiPath automation. Worked on mobile games, web applications, and automation projects, focusing on identifying issues, improving performance, and supporting reliable releases. Comfortable working with cross-functional teams to deliver tested and stable products.

EXPERIENCES

Software Developer (Full-Stack), Braq Studio

- Developed web applications (frontend, backend, and full-stack) based on agreed requirements
- Built and integrated APIs with external systems
- Developed automation solutions and AI-based tools for internal platforms
- Maintained and updated existing projects within defined scope
- Documented code and delivered complete project files upon completion
- Tested outputs to ensure quality and error-free delivery before release

Junior Quality Assurance Engineer, Mirai (a Scopely company)

- Tested mobile games and identified multiple functional issues before release
- Reported and tracked bugs with clear reproduction steps and documentation
- Created and executed test cases using TestRail
- Verified fixes with developers before release
- Provided feedback on gameplay, performance, and user experience
- Recognized with a recommendation letter from QA senior for performance and contribution

RPA Automation Developer (UiPath), SDA

- Built automation workflows using UiPath based on defined requirements
- Tested and validated automation processes to ensure correct performance
- Documented automation logic and implementation steps
- Participated in code reviews and team knowledge sharing

Business Analyst (UiPath), SDA

- Collected and documented business requirements for automation
- Analyzed processes to identify improvement opportunities
- Created Process Definition Documents (PDD) and test scenarios
- Worked with stakeholders to define expected outcomes

IT Intern (Co-op Training), King Fahad Hospital

- Assisted with IT support and system-related tasks
- Helped resolve basic technical issues

EDUCATION

Bachelor of Computer Science, Taibah University

2024

- Graduation Project: Drug Detection System using AI
- Certificate of Appreciation from Dean of the Faculty of Computer Science and Engineering

- 2 Recommendation letter

SKILLS

Technical Skills

Software Testing & Quality Assurance

- Manual Testing (Functional, Regression, Usability)
- Test Case Design and Execution
- Bug Tracking, Reporting, and Validation
- Test Documentation (Test Cases, Test Results)
- Tools: TestRail, Jira

Automation & RPA (UiPath)

- Building automation workflows using UiPath
- Testing and validating automation processes
- Process documentation (e.g., PDD)
- Understanding of automation best practices

Programming & Technical Basics

- C#, C++, Java
- SQL (Basic)
- HTML, CSS, JavaScript
- Adobe, Autodesk Maya, Microsoft
- Unreal & Unity Engine

Soft Skills

- Communication
- Problem Solving
- Team Collaboration
- Analytical Thinking
- Adaptability

RESEARCH & AWARDS

Enhancing Pedestrian Pose Detection Techniques	2025
Detecting and Analyzing Facial and Eye Features of Drugs Abuser Using AI	2024
2nd place winner in Ministry of Environment, Water & Agriculture hackathon	2023

CERTIFICATES

Game Design Fundamentals, MCIT & Misk
Unity gameteams for game development, Taibah Vally & CG Spectrum
Speaking and Presenting Skills, The Literary and Cultural Club
Cybersecurity and Data Privacy, Ataa Digital
Securing Access to Web and Cloud Applications, Oracle
Lead Organizer in Intentional Book Fair, Ministry of Culture
Participant in Hackathon Applications of the Fourth Industrial Revolution
Problem Solving Competition, Microsoft Club

PROJECTS

- Car Rental System
- Pizza Delivery System
- Pet Grooming Website
- Superman Game
